I have rearranged the Info window in an effort to more tightly group related items, i.e. Song Name and Composer.

It will never be perfect, but I think it is an improvement.

Name	Instrument	
Herbie Hancock	Fender Rhodes	- +
	Clavinet	- +
	ARP Odyssey	- +
Bennie Maupin	Soprano Sax	- +
	Tenor Sax	- +
	Bass Clarinet	- +
Paul Jackson	Electric Bass	- +
Bill Summers	Percussion	- +
Mike Clark	Drums	- +

The first Name could be automatically filled with the Artist name if available.

Instrument text could be auto-completed.

The edit mode toggle would work similar to Apple's Address Book - not my favorite solution, but I couldn't think of a better way to do it without creating additional windows or using sheets.

The instrumentation information could be used as criteria upon which to build Smart Playlists.

Smart Playlist

Personnel contains Herbie Hancock

Instrumentation contains Fender Rhodes
